Rahul Soni

Full Stack Developer | Cloud Computing & Salesforce Enthusiast
raahulsoni.2112@gmail.com | 7073660571 | Jaipur, Rajasthan | GitHub | LinkedIn

SUMMARY

MCA graduate specializing in Cloud Computing, with hands-on full-stack development experience (React.js, Node.js, MongoDB, AWS) and a Top 10 finish in AWS Cloud Arena 2.0. Actively building Salesforce platform skills through structured Trailhead learning and working toward the Salesforce Administrator (ADM-201) certification. Strong foundation in data structures, algorithms and problem-solving; quick learner looking to start my career in a Salesforce/ServiceNow development or cloud role.

SKILLS

Cloud & Backend: AWS, Cloud Functions, Networking Fundamentals, Node.js, Express.js, MongoDB, MySQL

Frontend & Programming: JavaScript, React.js, HTML/CSS, Data Structures & Algorithms

Salesforce (in progress): Trailhead: Platform Basics (completed), Data Modeling (in progress); custom objects/fields, hands-on org challenges; studying toward ADM-201

Soft Skills: Communication, Critical Thinking, Teamwork, Adaptability, Quick Learner, Analytical Thinking

CLOUD ACHIEVEMENTS & LEARNING

- **AWS Cloud Arena 2.0: Top 10 Finalist.** Selected among the top 10 in a competitive cloud challenge.
- **Cloud Computing specialization:** MCA (2024 – 2026) with a focus on cloud, backed by hands-on AWS and cloud-functions work.
- **Salesforce Trailhead:** Completed Platform Basics; working through Data Modeling, creating custom objects/fields and solving hands-on org challenges independently.
- **Certification roadmap:** ADM-201 → Platform App Builder → PD1, with a self-driven daily study routine.
- **Smart India Hackathon 2025:** Participant.

WORK EXPERIENCE

Full Stack Development Intern — Edureka *Nov 2023 – Dec 2023*

HTML/CSS, *Python*, *React.js*, *MongoDB*, *JavaScript*

Gained hands-on experience building and maintaining web applications: developed responsive front-end designs with React.js and implemented back-end functionality using Node.js, Express.js and MongoDB/MySQL.

TECHNICAL PROJECTS

CryptoPulse — Real-Time Cryptocurrency Tracker *2026*

HTML/CSS, *React.js*, *JavaScript* | *GitHub Repository* | *Live Demo*

- Displays real-time crypto data, making market trends accessible.
- Fetches live updates through external APIs to ensure current information.
- Features dynamic visuals for better data comprehension.

Flow25 — SaaS Style Landing Page *2026*

HTML/CSS, *React.js*, *JavaScript* | *GitHub Repository* | *Live Demo*

- Responsive design with interactive features to improve user experience.
- Animations and effects add visual appeal and smooth interactions.
- Component structure optimized for reusability and easier updates.

Fintech Dashboard — Modern Financial Dashboard *2026*

React.js, *Tailwind CSS*, *React Router*, *Recharts* | *GitHub Repository*

- Designed a high-performance fintech dashboard with clean UX and data visualization.
- Implemented dynamic routing with react-router-dom across Overview, Transactions and Analytics views.
- Built interactive charts and modular components for real-time financial data display.

PROBLEM SOLVING & DATA STRUCTURES

Strong ability to analyze problems, design efficient solutions and implement optimized code. Skilled in applying data structures (arrays, linked lists, stacks, queues, trees, graphs) and algorithms (searching, sorting, recursion, dynamic programming, graph traversal), with attention to time and space complexity.

EDUCATION

JECRC University — MCA, Cloud Computing *2024 – 2026*

Glocal University — BCA *2023 (CGPA: 7.7)*

Choudhary Public School — Class XII *2019 (66%)*

Choudhary Public School — Class X *2017 (60%)*

CERTIFICATIONS

- System Design Bootcamp — Brudite (May 2025)
- Full Stack Development — Edureka (April 2024)
